- Material : 100% Polyurethane
- Size: 2.5 / 5 / 7 / 10cm * 27m
- Thickness: 0.8mm

21

22

Better To Use with Rigid Tape

Heavy Elastic Adhesive Bandage-EAB

- Cotton elastic material
- Latex free, no allergic reactions will be caused by latex
- Heavy and stable stretch
- Freely adjust the tightness of the bandage to avoid poor circulation
- Strong and reliable stickiness
- No degumming and residue

23

24

Light Elastic Adhesive Sport Bandage (EAB)

25

Main Feature

- Soft and comfortable / Easy unwind and tear
- Highly elastic / Breathable for added skin comfort
- White or skin color option (oem is welcome)

26

Medical Adhesive Tape

27

Non-Woven

Cotton Zinc Oxide

Main Feature

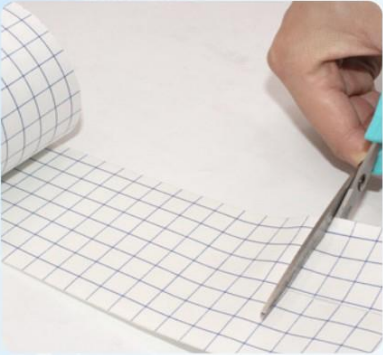

- Fabric Material: non-woven , cotton , pe , silk ...
- Normal Width: 1.25cm / 2.5cm / 5cm / 7.5cm ...
- Glue: Medical pressure-sensitive adhesive without latex
- With reliable adhesiveness, low sensitization, excellent compliance, no residue glue
- No harm to skin and air permeability, it enables the skin to breath freely
- Strong permeable, the skin can breathe naturally and decrease the possibility of infection
- Packing: paper packing / metal tin / plastic tin / dispenser

28

Various Packing

Non-woven Wound Dressing Roll

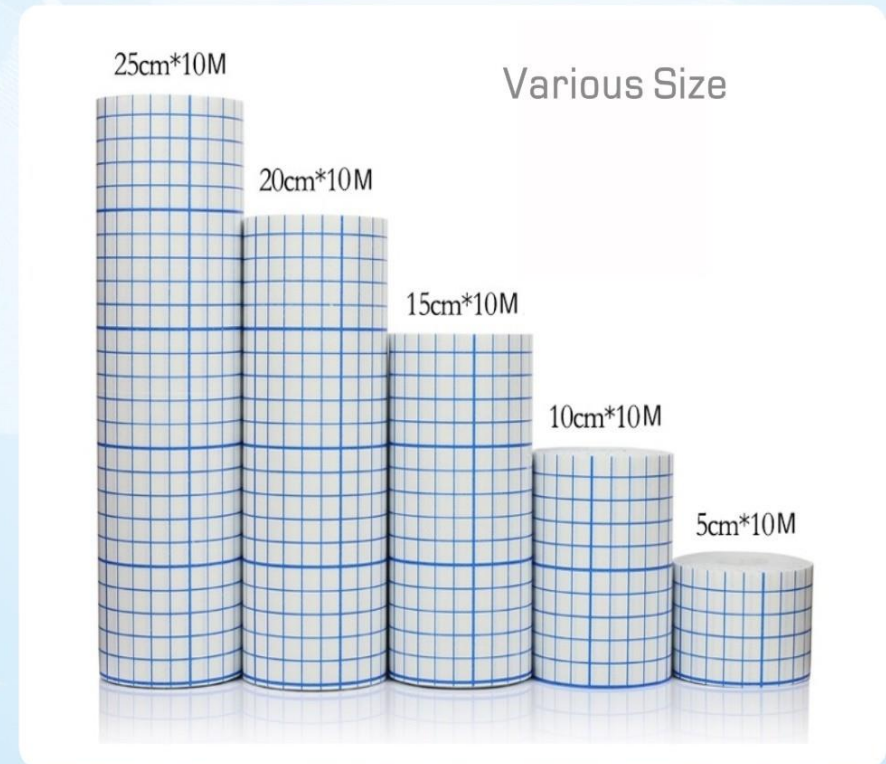

29

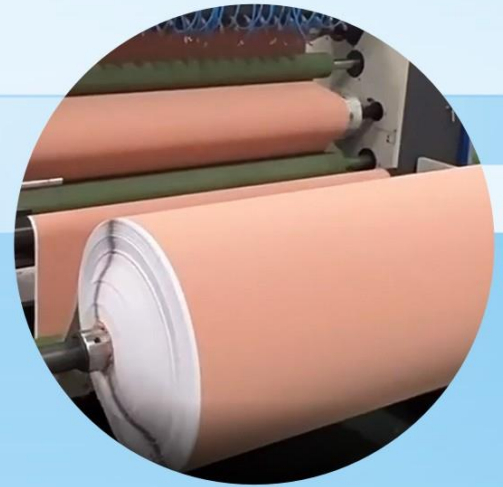

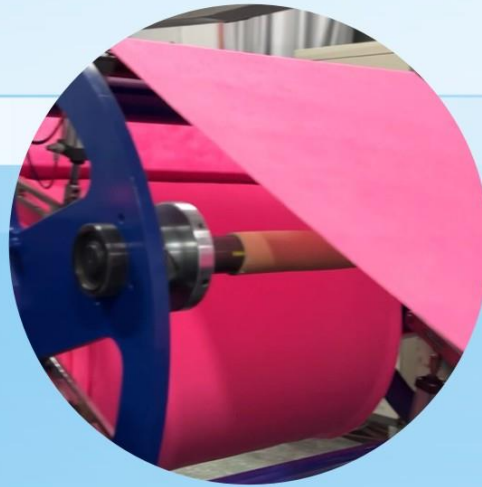

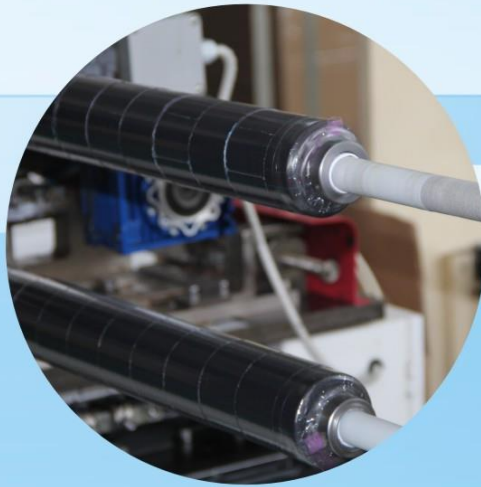

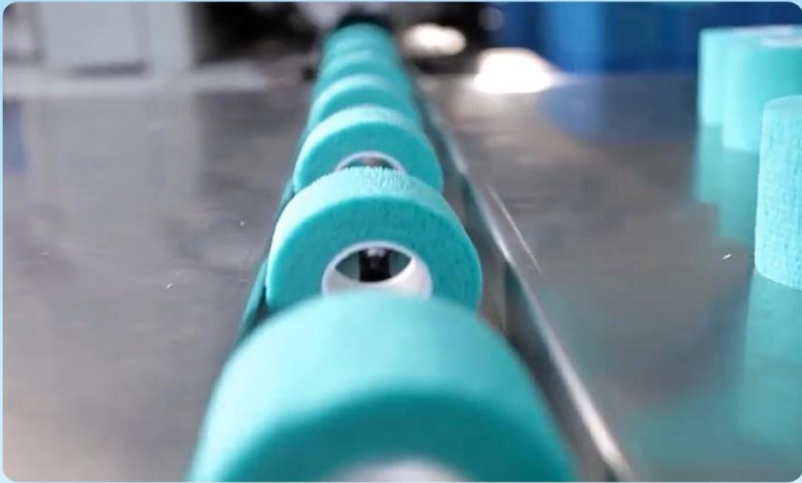

30

Main Feature

1. Soft and Comfortable
2. Hypoallergenic adhesive
3. Proud non-woven structure allows skin perspiration
4. Size: 5cm / 10cm / 15cm / 20cm / 25cm x 10m
